

Global IFA Travelling Lectureship Programme 2026

**Topic: The International Dimension of Withholding Taxes
(Tax Treaties and Beyond)**

ASUNCIÓN, PARAGUAY
23 JUNE, TUESDAY

International Fiscal Association

Withholding taxes (WHT) continue to play a pivotal role, particularly in relation to dividends, interests and royalties, both within domestic tax systems and in the context of tax treaties. Globalisation has (i) increased the volume and complexity of cross-border transactions; (ii) expanded the scope of domestic source taxation and WHT; (iii) drawn more attention to potential abuse; (iv) underscored the need for better tax treaty relief procedures. The 2026 TLP edition will examine practical WHT issues across jurisdictions, treaty interaction with domestic law and trends on how to shape WHT in the future.

Prof. Dr. Adolfo Martín Jiménez

The Chair of Global IFA's Permanent Scientific Committee
